Accountancy, Business Management, and Entrepreneurship (ABME)

**SENIOR HIGH SCHOOL
SY 2026-2027**

FEU CAVITE
Basic Education Department

Accountancy, Business Management, and Entrepreneurship (ABME)

I. Pathway Overview Description

The Accountancy, Business Management, and Entrepreneurship (ABME) Career Pathway prepares students for careers in business, finance, and enterprise development through a strong foundation in accounting principles, business operations, and strategic management. Learners develop financial literacy, analytical thinking, and decision-making skills essential for navigating dynamic economic environments, while gaining an understanding of market behavior, organizational structures, and entrepreneurial processes.

The curriculum integrates theoretical knowledge with practical applications through business simulations, research projects, and real-world engagements under the ACTIVE Way of Learning. Students may explore areas such as financial management, marketing, and enterprise development, equipping them with the competencies to create, manage, and sustain business ventures. The pathway also emphasizes ethical leadership and uprightness in business practices, preparing students for higher education and professional careers in commerce, industry, and entrepreneurship.

II. Pathway Objectives

This pathway aims to:

1. Develop foundational knowledge in accounting, business management, and entrepreneurship
2. Build financial literacy and competence in analyzing business and economic environments
3. Enhance strategic thinking and decision-making skills for business operations
4. Apply research methods in solving business-related problems and opportunities
5. Promote ethical practices and uprightness in business and entrepreneurial contexts
6. Prepare students for transition to tertiary programs in business and related fields

III. Pathway Outcomes

Upon completion of this pathway, students shall be able to:

1. Explain fundamental accounting principles and financial processes
2. Analyze business environments and organizational structures
3. Develop and evaluate business plans and entrepreneurial ventures
4. Apply financial management and marketing strategies in simulated and real-world contexts
5. Conduct basic business research using appropriate methodologies
6. Utilize digital tools and technologies for business operations and analysis
7. Demonstrate problem-solving and decision-making skills in business scenarios
8. Communicate business concepts and proposals effectively
9. Exhibit ethical behavior, professionalism, and uprightness in business practices
